

DB7 Mini KBD

Easy and light

The DB7 Mini KBD is especially made for the DB7 cradle but works just as well to any other MilDef product with a USB port. With 66 backlight keys this lightweight keyboard will work just as good in the dark. The build in left/right click with stickpointer also enables full mouse functionality.

Guaranteed performance

Our products always come with lifetime support to ensure your equipment maintains peak performance for many missions to come.
